CECO's Chief Executive Officer Dennis Sadlowski commented, "Our first quarter results once again demonstrate our ability to execute despite the accelerating social and economic changes caused by the COVID-19 pandemic. After a very solid start to the year revenue moderated ending down 10% sequentially and 6% year over year. Even with lower revenue, our team's track record of strong execution produced a healthy gross operating margin of 35%, which is up both sequentially and year over year."

Mr. Sadlowski added, "Our team generated new orders of \$76 million up 12% from Q4 with sequential orders up double digits in all three of our reporting segments after a down final quarter of 2019. We continued to build on a robust backlog of \$209 million while executing proactive cost measures to secure a strong future for the company. We are maintaining a 100% commitment to the health and safety of our associates while serving our customers in critical applications and essential industries, while the markets remain highly uncertain due to the pandemic."

#### NOTE REGARDING NON-GAAP FINANCIAL MEASURES

CECO is providing certain non-GAAP historical financial measures as presented above as the Company believes that these figures are helpful in allowing individuals to better assess the ongoing nature of CECO's core operations. A "non-GAAP financial measure" is a numerical measure of a company's historical financial performance that excludes amounts that are included in the most directly comparable measure calculated and presented in the GAAP statement of operations.

Non-GAAP operating income, non-GAAP net income, non-GAAP operating margin, non-GAAP net income per basic and diluted share and adjusted EBITDA, as we present them in the financial data included in this press release, have been adjusted to exclude the effects of amortization expenses for acquisition related intangible assets, restructuring expenses primarily relating to severance and legal expenses, loss on divestitures, net of selling costs necessary to complete the divestiture such as legal, accounting and compliance, and other nonrecurring or infrequent items and the associated tax benefit of these items. Management believes that these items are not necessarily indicative of the Company's ongoing operations and their exclusion provides individuals with additional information to compare the Company's results over multiple periods. Management utilizes this information to evaluate its ongoing financial performance. Our financial statements may continue to be affected by items similar to those excluded in the non-GAAP adjustments described above, and exclusion of these items from our non-GAAP financial measures should not be construed as an inference that all such costs are unusual or infrequent.

Non-GAAP operating income, non-GAAP net income, non-GAAP operating margin, non-GAAP net income per basic and diluted share and adjusted EBITDA are not calculated in accordance with GAAP, and should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Non-GAAP financial measures have limitations in that they do not reflect all of the costs associated with the operations of our business as determined in accordance with GAAP. As a result, you should not consider these measures in isolation or as a substitute for analysis of CECO's results as reported under GAAP. Additionally, CECO cautions investors that non-GAAP financial measures used by the Company may not be comparable to similarly titled measures of other companies.

In accordance with the requirements of Regulation G issued by the Securities and Exchange Commission, non-GAAP operating income, non-GAAP net income, non-GAAP operating margin and non-GAAP net income per basic and diluted share and adjusted EBITDA stated in the tables above present the most directly comparable GAAP financial measure and reconcile to the most directly comparable GAAP financial measures.
