Forward-looking statements and Non-GAAP information

This presentation contains forward-looking statements with predictions, projections and other statements about future events. These statements are made on the basis of management's views and assumptions regarding future events and business performance. We use words such as "believe," "expect," "anticipate," "intends," "estimate," "forecast," "project," "will," "plan," "should" and similar expressions to identify forward-looking statements. Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from these forward-looking statements. Potential risks and uncertainties, among others, that could cause actual results to differ materially are discussed under "Part I - Item 1A. Risk Factors" of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2020 and include, but are not limited to: the sensitivity of our business to economic and financial market conditions generally and economic conditions in CECO's service areas; dependence on fixed price contracts and the risks associated therewith, including actual costs exceeding estimates and method of accounting for revenue; the effect of growth on CECO's infrastructure, resources, and existing sales; the ability to expand operations in both new and existing markets; the potential for contract delay or cancellation; liabilities arising from faulty services or products that could result in significant professional or product liability, warranty, or other claims; changes in or developments with respect to any litigation or investigation; failure to meet timely completion or performance standards that could result in higher cost and reduced profits or, in some cases, losses on projects; the potential for fluctuations in prices for manufactured components and raw materials, including as a result of tariffs and surcharges; the substantial amount of debt incurred in connection with our strategic transactions and our ability to repay or refinance it or incur additional debt in the future; the impact of federal, state or local government regulations; economic and political conditions generally; our ability to successfully realize the expected benefits of our restructuring program; our ability to successfully integrate acquired businesses and realize the synergies from strategic transactions; unpredictability and severity of catastrophic events, including cyber security threats, acts of terrorism or outbreak of war or hostilities or public health crises, such as uncertainties regarding the extent and duration of impacts of matters associated with the novel coronavirus (COVID-19), as well as management's response to any of the aforementioned factors. Many of these risks are beyond management's ability to control or predict. Should one or more of these risks or uncertainties materialize, or should the assumptions prove incorrect, actual results may vary in material aspects from those currently anticipated. Investors are cautioned not to place undue reliance on such forward-looking statements as they speak only to our views as of the date the statement is made. Furthermore, forward-looking statements speak only as of the date they are made. Except as required under the federal securities laws or the rules and regulations of the Securities and Exchange Commission, we undertake no obligation to update or review any forward-looking statements, whether as a result of new information, future events or otherwise.

While CECO reports its results in accordance with generally accepted accounting principles in the U.S. (GAAP), comments made during this conference call and these materials may include the following "non-GAAP" financial measures; non-GAAP gross profit, non-GAAP operating income, non-GAAP net income, adjusted EBITDA, adjusted free cash flow, adjusted net free cash flow, non-GAAP gross profit margin; non-GAAP operating margin, non-GAAP earnings per basic and diluted share, adjusted EBITDA margin and selected measures expressed on a constant currency basis. These measures are included to provide additional useful information regarding CECO's financial results and are not a substitute for their comparable GAAP measures. Explanations of these non-GAAP measures and reconciliations of these non-GAAP measures to their directly comparable GAAP measures are included in the accompanying "Supplementary Non-GAAP Financial Measures." Descriptions of many of these non-GAAP measures are also included in CECO's SEC reports.

- More Short Cycle in Portfolio

Strong Finish to 2022

- Programmatic / Accretive M&A
- Operating Model Deployment
- Sustain Organic Growth
- Portfolio Evaluation / Rebalancing
- Share Buybacks Continue
- Short Cycle Grows to ~35%+ of Biz.

Accelerate Execution in 2023

- Accelerate Investments in Growth
- New Adjacencies / Short Cycle ~ 50%
- Full Operating Model Deployed
- EBITDA Margins in Teens
- High Performance Culture
- Deliver Meaningful Earnings Growth

Continue to Accelerate 2023 – 2025

Summary

- A diversified leader in Industrial Air, Industrial Water and the Energy Transition
- YTD performance very strong ... great growth and operating leverage
- Record backlog = Future growth already in place
- Full Year Guidance ... Increased to reflect backlog, pipeline and execution
- Capital Allocation ... M&A + Share Repurchases = Additional Value
- Steady portfolio shift underway with higher performance
