"We are pleased to report that our first quarter produced record orders and backlog, as well as strong double-digit growth in sales and income. Growth was broad-based across our entire portfolio, and we believe that we are well positioned for strong continued sales growth throughout the remainder of the year," said CECO Chief Executive Officer, Todd Gleason.

First quarter operating income was \$5.2 million, up 68 percent when compared to \$3.1 million in the first quarter 2021. On an adjusted basis, non-GAAP operating income was \$7.8 million, up 56 percent when compared to \$5.0 million in the first quarter of 2021. Net income was \$2.8 million in the quarter, up 133 percent compared to \$1.2 million in the first quarter 2021. Non-GAAP net income was \$5.0 million, up 61 percent compared to \$3.1 million in the first quarter 2021. Adjusted EBITDA was \$9.5 million, up 48 percent compared to \$6.4 million in the first quarter 2021.

"We believe the strong start to 2022 reflects the hard work our team has done to better position CECO for sustainable growth and higher levels of profitability. Additionally, our healthy balance sheet has enabled us to authorize a \$20 million share repurchase program – the largest in our company's history, while continuing to improve our portfolio with strategic, accretive acquisitions, such as the Compass Water Solutions transaction," Mr. Gleason concluded.

Compass Water Solutions Acquisition

On May 3, 2022, CECO acquired Compass Water Solutions, Inc. ("Compass") for a total purchase price of \$12.5 million with a mix of cash and debt. Compass is a leading global supplier of membrane-based industrial water and wastewater treatment systems that help customers achieve regulatory compliance of water discharge at the lowest lifecycle cost. With this acquisition, CECO expands its addressable industrial water technology market by over \$250 million, with an expected CAGR through 2025 of over 6 percent for industrial oily-water and seawater reverse osmosis applications. CECO expects the acquisition to be accretive to total company EBITDA margins, earnings per share, and free cash flows in 2022.

Full Year 2022 Outlook:

The Company introduces full year 2022 guidance of \$360 to \$380 million in revenue, up approximately 14 percent at the midpoint year over year. The Company anticipates \$33 to \$38 million of adjusted EBITDA, up approximately 40 percent at the midpoint year over year.

"We expect to deliver great financial results throughout the year as our businesses execute focused growth and operating excellence initiatives. We believe the incremental benefit of well-executed and accretive acquisitions will add to our 2022 performance and strengthen our portfolio for the future," concluded Mr. Gleason.

NOTE REGARDING NON-GAAP FINANCIAL MEASURES

CECO is providing certain non-GAAP historical financial measures as presented above as we believe that these figures are helpful in allowing individuals to better assess the ongoing nature of CECO's core operations. A "non-GAAP financial measure" is a numerical measure of a company's historical financial performance that excludes amounts that are included in the most directly comparable measure calculated and presented in accordance with GAAP.

Non-GAAP operating income, non-GAAP net income, non-GAAP operating margin, non-GAAP earnings per basic and diluted share and adjusted EBITDA, as we present them in the financial data included in this press release, have been adjusted to exclude the effects of amortization expenses for acquisition related intangible assets, contingent retention and earnout expenses, restructuring expenses primarily relating to severance and legal expenses, acquisition and integration expenses which include retention, legal, accounting, banking, and other expenses, foreign currency remeasurement and other nonrecurring or infrequent items and the associated tax benefit of these items. Management believes that these items are not necessarily indicative of the Company's ongoing operations and their exclusion provides individuals with additional information to compare the Company's results over multiple periods. Management utilizes this information to evaluate its ongoing financial performance. Our financial statements may continue to be affected by items similar to those excluded in the non-GAAP adjustments described above, and exclusion of these items from our non-GAAP financial measures should not be construed as an inference that all such costs are unusual or infrequent.

Non-GAAP operating income, non-GAAP net income, non-GAAP operating margin, non-GAAP earnings per basic and diluted share and adjusted EBITDA are not calculated in accordance with GAAP, and should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Non-GAAP financial measures have limitations in that they do not reflect all of the costs associated with the operations of our business as determined in accordance with GAAP. As a result, you should not consider these measures in isolation or as a substitute for analysis of CECO's results as reported under GAAP. Additionally, CECO cautions investors that non-GAAP financial measures used by the Company may not be comparable to similarly titled measures of other companies.

In accordance with the requirements of Regulation G issued by the Securities and Exchange Commission, non-GAAP operating income, non-GAAP net income, non-GAAP operating margin, non-GAAP earnings per basic and diluted share and adjusted EBITDA stated in the tables above are reconciled to the most directly comparable GAAP financial measures.
