Forward-looking statements and Non-GAAP information

This presentation contains forward-looking statements with predictions, projections and other statements about future events. These statements are made on the basis of management's views and assumptions regarding future events and business performance. We use words such as "believe," "expect," "anticipate," "intends," "estimate," "forecast," "project," "will," "plan," "should" and similar expressions to identify forward-looking statements. Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from any future results, performance or achievements expressed or implied by such statements. Potential risks and uncertainties, among others, that could cause actual results to differ materially are discussed under "Part I – Item 1A. Risk Factors" of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2024 and may be included in subsequently filed Quarterly Reports on Form 10-Q, and include, but are not limited to: the sensitivity of our business to economic and financial market conditions generally and economic conditions in our service areas; dependence on fixed price contracts and the risks associated therewith, including actual costs exceeding estimates and method of accounting for revenue; the effect of growth on our infrastructure, resources, and existing sales; the ability to expand operations in both new and existing markets; the potential for contract delay or cancellation as a result of on-going or worsening supply chain challenges; liabilities arising from faulty services or products that could result in significant professional or product liability, warranty, or other claims; changes in or developments with respect to any litigation or investigation; failure to meet timely completion or performance standards that could result in higher cost and reduced profits or, in some cases, losses on projects; the potential for fluctuations in prices for manufactured components and raw materials, including as a result of tariffs and surcharges and rising energy costs; inflationary pressures relating to rising raw material costs and the cost of labor; the substantial amount of debt incurred in connection with our strategic transactions and our ability to repay or refinance it or incur additional debt in the future; the impact of federal, state or local government regulations; our ability to repurchase shares of our common stock and the amounts and timing of repurchases, if any; our ability to successfully realize the expected benefits of our restructuring program; our ability to successfully identify and integrate acquired businesses and realize the synergies from strategic transactions; and the unpredictability and severity of catastrophic events, including cyber security threats, acts of terrorism or outbreak of war or hostilities or public health crises, as well as management's response to any of the aforementioned factors. Many of these risks are beyond management's ability to control or predict. Should one or more of these risks or uncertainties materialize, or should the assumptions prove incorrect, actual results may vary in material aspects from those currently anticipated. Investors are cautioned not to place undue reliance on such forward-looking statements as they speak only to our views as of the date the statement is made. Except as required under the federal securities laws or the rules and regulations of the Securities and Exchange Commission, we undertake no obligation to update or review any forward-looking statements, whether as a result of new information, future events or otherwise.

While we report our results in accordance with generally accepted accounting principles in the U.S. (GAAP), comments made during this conference call and these materials may include the following "non-GAAP" financial measures: organic revenue, non-GAAP gross profit, non-GAAP operating income, non-GAAP net income, adjusted EBITDA, adjusted free cash flow, adjusted net free cash flow, non-GAAP gross profit margin, non-GAAP operating margin, non-GAAP earnings per basic and diluted share, adjusted EBITDA margin and selected measures expressed on a constant currency basis. These measures are included to provide additional useful information regarding our financial results and are not a substitute for their comparable GAAP measures. Management believes that these measures provide individuals with additional information to better compare the Company's results over multiple periods. Explanations of these non-GAAP measures and reconciliations of these non-GAAP measures to their directly comparable GAAP measures, to the extent the reconciliation be performed without unreasonable efforts, are included in the accompanying "Appendix." Descriptions of many of these non-GAAP measures are also included in our SEC reports.

CECO Environmental ... *Mission Critical Solutions ...*

We Protect People

Solving customer challenges to ensure their employees work in a safe and productive work environment

We Protect The Environment

We minimize our environmental impact and help our global customers do the same

We Protect Industrial Equipment and Improve Processes

We help maximize our customer's investment in their operating systems and optimize their output

About CECO

CECO Environmental

Building The Leading, Global, Sustainable Industrial Environmental Solutions Company

Leading Businesses

- **Balanced, Niche Leadership Positions**
  - Industrial Air
  - Industrial Water *(new since 2020)*
  - Energy Transition
- **Global: ~ 50% of Orders Outside U.S.**
- **Strong Organic Growth**
  - Averaged 10%+ Organic Since 2021
  - Record Backlog Positions Us for Future

Sustainable Value Creation

- **Focused Capital Allocation Model**
  - Invest in Organic Growth / Expansion
  - Programmatic M&A
  - Debt/Balance Sheet Management
  - Stock Buybacks
- **Proven M&A Track Record**
  - ~ 50% of Acquisitions Doubled Sales within 24 months of Deal
- **Management Aligned w/ Shareholders**
  - Strategy deployment
  - Compensation

Forbes 2024
AMERICA'S MOST SUCCESSFUL SMALL COMPANIES

Programmatic M&A
~ Dozen Strategic Deals Since mid-2020

CECO Environmental ... *100% Providing Environmental Solutions for Industry*

100% Industrial End-Market

Diversified Industrials

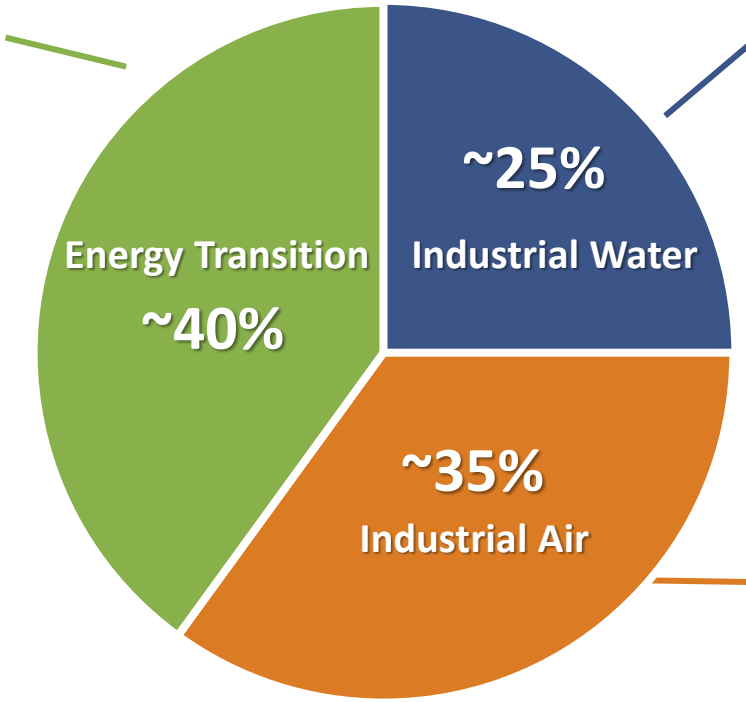

- General Industrial
- EV & Battery Production
- Beverage Can Production
- Food & Beverage Production
- Metals Processing
- Water / Wastewater
- Semiconductor
- Renewables Technology

Energy Transition / Power

- Gas-fired Power Generation
- Datacenter Power Management
- Natural Gas Infrastructure
- Hydrocarbon Processing
- Nuclear
- Geothermal
- Carbon Capture
- Water Supply

100% Environmental Solutions

- Emission Management
- Thermal & Acoustics Management
- Gas & Liquid Separation/Filtration
- Cyclonic Separation
- Combustion Mgmt
- Carbon Capture

- Supply Water Treatment
- Waste Water Treatment
- Ultra-Pure Water Supply
- Produced Water Treatment
- Oily Water Separators
- Reverse Osmosis

- Thermal Abatement
- Silencers
- Wet/Dry Scrubbers
- Oil Mist & Smoke Removal
- Odor Management
- Dust Removal
- Air Flow Management

CECO ENVIRONMENTAL

CECO Environmental ... *Global Company To Serve Global Opportunities*

Global HQ: Dallas, TX

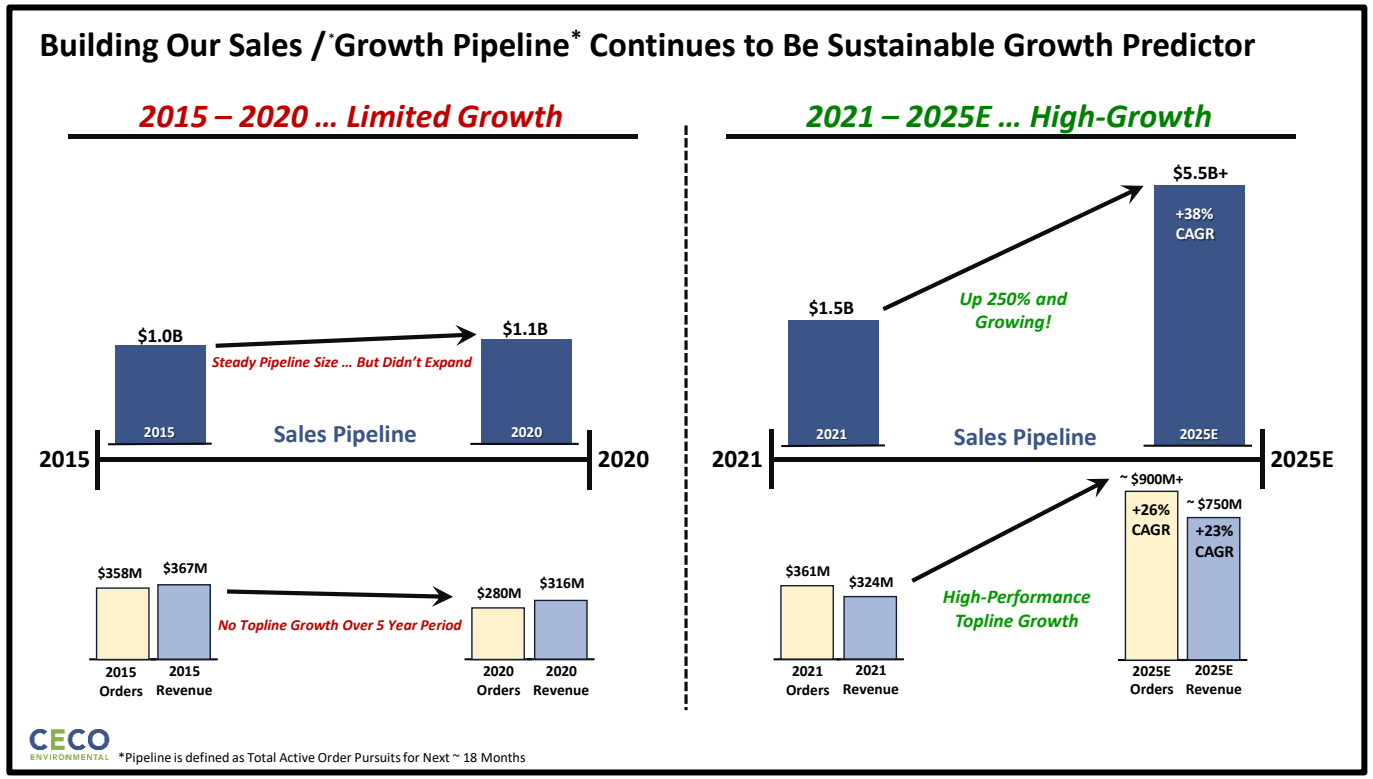

Sales, Engineering & Admin

Manufacturing & Assembly

- ~1,600 Employees worldwide
- ~40% Sales Outside of US

Building Our Sales / Growth Pipeline* Continues to Be Sustainable Growth Predictor

*Pipeline is defined as Total Active Order Pursuits for Next ~ 18 Months

Power – Energy

Market Drivers: Power Demand, Electrification, Computing / AI, LNG, Nuclear, Geothermal
Key Technology: SCR/SNCR/VOC Emissions Treatment, Thermal & Acoustic Mgt., Gas & Liquid Separation & Filtration, Combustion and Burner Mgmt,

Industrial Water

Market Drivers: Industrial Water & Wastewater Infrastructure, Water Reuse and Recycle, Desalination
Key Technology: Dissolved Air Flotation, Oily Water Separations, Ion Exchange, Membrane Water Treatment, Process Water Supply

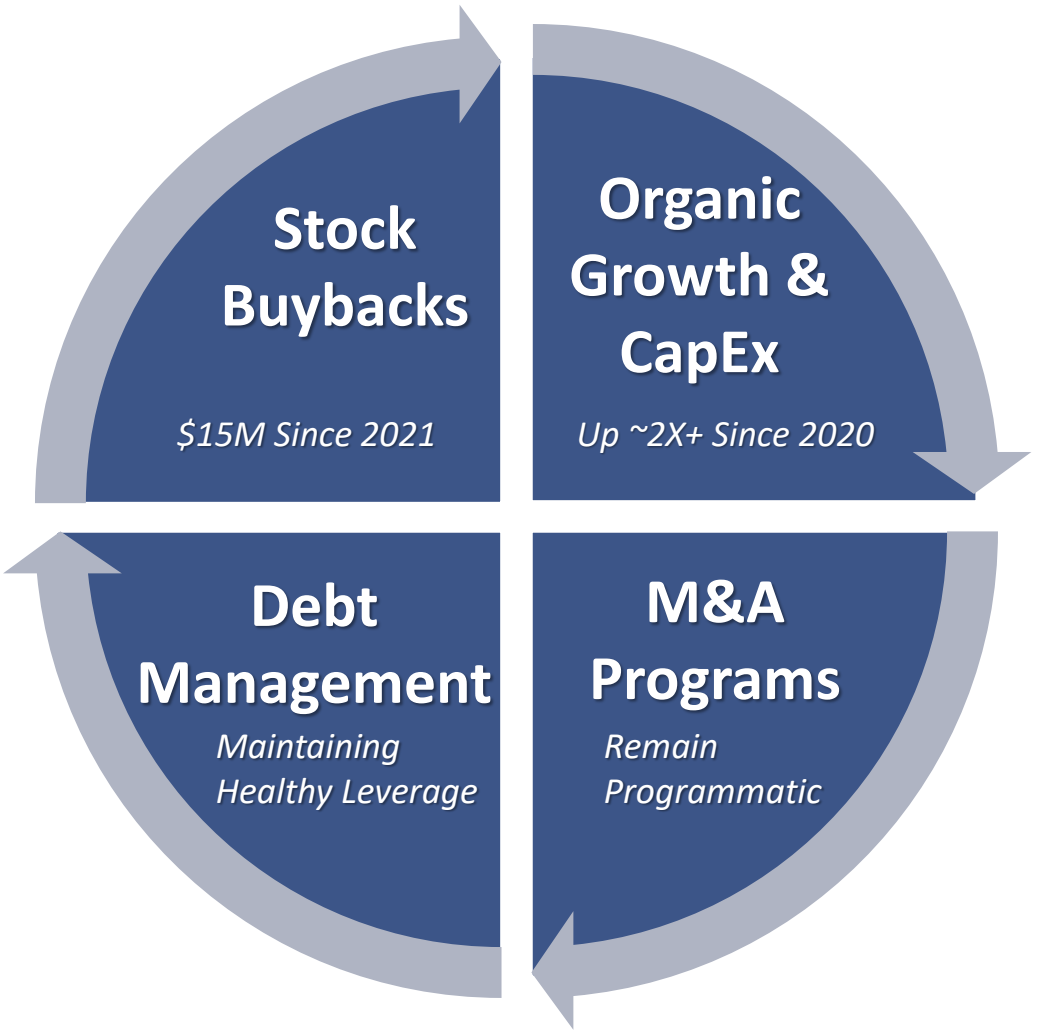

Industrial Air

Market Drivers: Industrial Reshoring, Energy Storage, Semiconductors, Electronics, Metals Processing, Construction Materials Production
Key Technology: Silencers, Scrubbers, VOC Removal, Thermal Abatement, CatOx, Air Flow Mgmt, Odor Control

CECO is Well Positioned on Key Secular Trends in Power, Water and Air

CECO Environmental ... *Focused Capital Deployment For Growth ...*

Capital Allocation Strategy

Investment Drivers

Organic Growth Programs / Investments

- Sales Team, Engineers and Project Managers
- CapEx: Biz. Growth, ERP Migration, Cybersecurity

M&A Transactions

- Active Pipeline ... Air / Water / Energy Transition
- Targeting ROIC > 25%

Debt Management

- Maintain a Healthy Balance Sheet ... Leverage ~2.0X
- New Credit Facility Expands Capacity

Stock Buybacks

- $15M repurchased since 2021 (avg. price ~ $8.20)
- $10M remaining on authorization

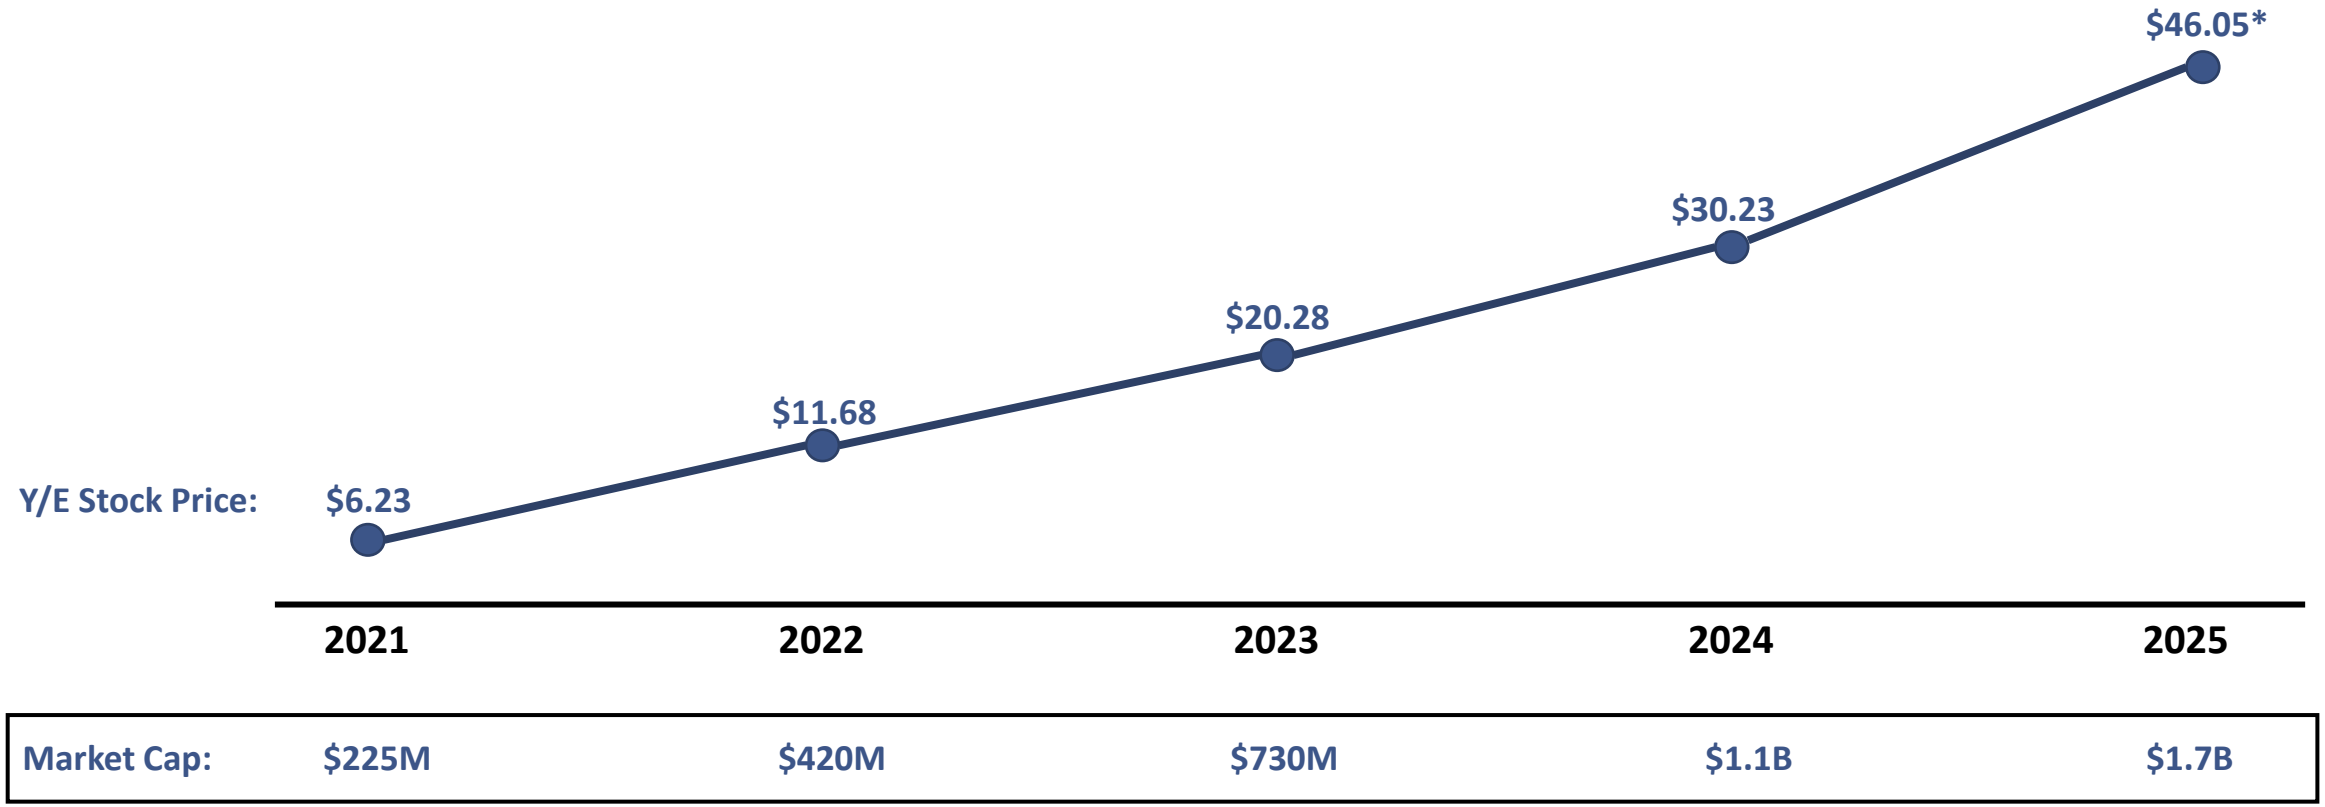

Delivering Sustainable, Shareholder Value[1]

Recent Financials and Outlook

Q2 Summary

CECO Environmental

Protecting People, the Environment and Industrial Equipment

Demand Environment is Very Robust

- Pipeline of $5.5B+ up ~ $1B YoY
- Strong customer engagement
- Limited impact from trade and geopolitical tensions

Strong Q2 and 1H Performance

- +76% Backlog, +95% Orders, +35% Revenue
- +45% Adj EBITDA, > 36% Gross Profit Margin

Updated Full Year Outlook

- Orders B2B of > 1.2x even with record revenues
- Revenue outlook increased $25M … +35% YoY
- Adj. EBITDA expected up ~ 50% YoY … even with investments

Portfolio Transformation

- M&A integrations on track
- Revenue and Cost synergies on track
- Reloading the Pipeline

1st Half 2025 Highlights

1H'25 Financials / Portfolio

- 1H Bookings ~ $502M **up 76% YoY**; Book-to-Bill ~ 1.4x
- Q2 Power-Gen Related Orders helped deliver record bookings
- **Backlog ~ $688M** up 76% YoY
- 1H Revenue ~ $362M… up 37% YoY and **higher than almost every full year revenues prior to 2022**
- Recent M&A delivering on targets; M&A Pipeline = Attractive

Sales Pipeline

- **Highest-Ever Sales Pipeline** of opportunities, > $5.5-billion
- **Customer inquiries remain very active** … No impact from changing regulatory frameworks
- Inquiry-to-Order cycle time has improved versus 2024
- Recent **M&A expanding CECO pipeline** in key verticals and geographies

Macro Environment

- **Power Generation, Gas Infrastructure and Semiconductor markets remain incredibly robust**
- Very steady regional demand in US, Middle East, Asia and India
- Despite 'headline uncertainty' from U.S. Policies … Limited impact to market momentum
- Continue to expect modest inflation impact in 2H'25

Tremendous 1st Half Results … Well Positioned for Strong 2nd Half

CECO ENVIRONMENTAL

FY'2025 Guidance

($MM)

	April '25 FY View	Current Outlook
Orders/B-2-B (book to bill)	1.0 – 1.1X	> 1.2X
Revenue	700 – 750	725 – 775
Adj EBITDA	90 – 100	90 – 100 Margins: 12.5% - 13.0% Up YoY ~ +150bps
Adj. Free Cash Flow* % of Adj. EBITDA	> 60%	> 60%

*See definition in Appendix.

Assumptions

Orders

- **Raising** B2B Outlook
- ~ $0.5B bookings in 1H with record pipeline

Revenue

- **Raising** ~ $25M given expected 2H conversion
- **Up ~35% YoY** … with **20% Organic Growth**

Adjusted EBITDA

- Maintaining Range … **Up ~ 50% YoY**
  - Benefits from higher revenue outlook
  - Continuing investments to support growth
- Uncertainty: 2H'25 Inflation

Adj. Free Cash Flow

- 2H FCF profile improves over 1H

CECO ENVIRONMENTAL

Appendix 2

Supplemental Data and Non-GAAP Reconciliation Tables

Q2'25 and TTM Financial Performance

TTM = Trailing 12 Month

	Q2'25	YoY	Q2 TTM	YoY
Backlog	**$688M**	**76%**	**$688M**	**76%**
Orders	**$274M**	**95%**	**$883M**	**58%**
Book to Bill	***1.48x***		***1.35x***	
Revenue	**$185M**	**35%**	**$656M**	**16%**
Adj. EBITDA	**$23.3M**	**45%**	**$70.7M**	**11%**
Margin %	***12.6%***	***+87bps***	***10.8%***	***(45)bps***
Adj. EPS	**0.24**	**0.04**	**0.75**	**(0.06)**

Highlights

- **Record Backlog ...** Strong bookings in PowerGen, Semicon, Water, and Nat Gas (LNG, Midstream)

- **Record Orders …** up ~ $133M YoY and ~ $46M / 20% sequentially
- **3rd** consecutive quarter **> $200M** w/ largest order in history

- **YoY: Up ~35%** … double-digit growth in both organic and inorganic
- **Seq: Up ~ $8M / +5%** despite divestiture of Global Pump Solutions
- Expect continued healthy backlog conversion

- **Gross Margins ~36%,** up 100 bps sequentially / 50 bps YoY on continued productivity, project execution and mix
- **Adj EBITDA** margin up ~ 500 bps sequentially, driven by absence of time-specific Q1 items, execution and cost management
- **Adj EBITDA up 45% YoY** and margins up ~ 90bps

- **Adj EPS up 20%,** driven by volume and operational improvements, partially offset by higher interest expenses.

Strong Across the Board … Highlighted by Q2 Orders up 95% and TTM Orders up 58%

CECO ENVIRONMENTAL

Tariff Environment – Current State and Mitigation Actions

Exposure	Current State	Future State (actions underway)
U.S. Capacity	– Existing U.S. supply capacity addresses meaningful portion of U.S. demand	– Continuing to develop new sources of U.S. capacity and strengthen supply chain capabilities – Selective insourcing to existing CECO facility
Mexico / Canada	– Majority of supply is USMCA qualified or exempt – Capacity to support additional demand	– Targeting 100% USMCA qualification or exemption
China / Asia	– Limited-to-No China exposure (importing to U.S.) – Vietnam and Korea exposure limited to power and energy projects with exemptions	– Asia-for-Asia supply and project execution – Internal capacity for fabrication in China and Korea
EU / ME / India	– Customer-specified German tech for select projects – Manufacture in-region, for region	– EU for EU supply and project execution – Internal capacity for fabrication in UK and Germany – Securing customer deviation for US supply

General

- Working with our customers to ensure contractual language and protections are sufficient, secure favorable INCO terms
- Anticipating and working to mitigate inflationary impact on raw materials
- Resiliency and diversification of our operations and supply chain supportive of mitigation of tariff impacts

Better Positioned Than "Covid Supply Chain Shock Quarter(s)" to Handle External Disruptions … Rapid Mitigation Actions Underway to Largely Offset Anticipated Cost Risks*

CECO ENVIRONMENTAL

** Assumes tariff rates and imposition on April 28, 2025 are maintained for the remainder of 2025*

Tariff Outlook for the Remainder of 2025

($MM)

* Estimated impacts as of April 28, 2025

Category	Gross Impact *
Materials	**$1 – 2**
Components (1)	**$1 – 3**
Fabrications	**$1 – 5**
Total	**$3 – 10**

(1) Finished items including pumps, valves, filters, sensors, control panels

Ongoing Mitigations

Headcount & Process Optimization	~ $3
Supply Chain Efficiencies	$0 – 2
Other Actions	$0 – 1
Pricing Pass Thru Cost	TBD
Total Actions Identified	**$3 – 6**

- We buy in-region, for-region. Cost and revenue bases are largely aligned
- We are a portfolio of agile, niche businesses with adaptable supply chains
- Surcharges/inflation triggers in contract T&C language
- Use free trade zones, when possible, to defer duty payment
- Canadian & Mexican imports are exempted by USMCA

Key Assumptions

- Canadian & Mexican imports retain USMCA compliance/exemptions
- 25% tariff rates on “raw” steel and aluminum remain in place
- 10% reciprocal tariffs remain in place
- Tariff rates as of April 28 remain effective through the rest of the year

CECO ENVIRONMENTAL
